DESIGNS

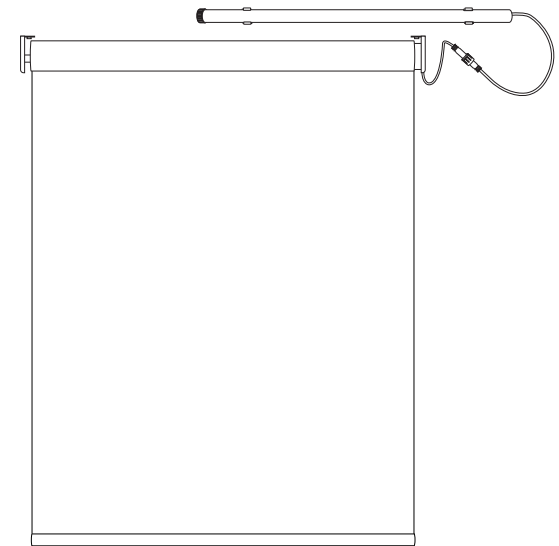

We are pleased to bring you this new, more powerful, simple battery-operated motor option. Powered by eight double “AA” alkaline batteries, the BF1500 is very quiet, compact, and can lift up to 12 lbs. of shade weight.

Competitively priced, this motor option is ideal for most small to medium sized windows.

### The BF1500 ~ A Simple Battery Motor, Competitively Priced!

- Child Safe.
- No operating cords or chains.
- Costs less than other battery-operated shades.
- Quieter than other battery-operated shades.
- Powered by 8 double “AA” alkaline batteries.
- Battery life is good for 200 cycles.
- Warning sound when battery charge is low.
- No wiring installation.
- Electronic limit will stop shade at high and low points automatically.
- Stop your shade anywhere.
- Easy to operate.
- Compatible with our exclusive fabric-wrapped cassettes.
- Two Remote Control options in two different colors.

## Will a Battery Motor work for your Natural Woven Shade?

The weight class of your fabric will determine whether you can use the BF1500 battery motor. Check the table below to determine the weight class of your fabric, then check the tables on the facing page to determine whether your Natural Woven Shade can be operated with the BF1500 battery motor.

| WEIGHT CLASS FOR NATURAL WOVEN SHADE FABRICS |          |                |                 |               |          |                |                 |
