Benefits

- Ideal for outdoors
- Strong, weather resistant
 - Daytime privacy
 - Provide sun blockage
- Reduce heat, glare, and harmful UV rays
- Protect your furnishings

Our **ROLLSTAR-EX™ SOLAR SHADES** are specifically designed and engineered for **OUTDOOR USE**. Exterior solar shades are even more effective at reducing ultraviolet radiation than indoor shades. They reduce heat and glare, fading of furniture and carpet, and greatly reduce all the damage, discomfort, and annoyance caused by the sun.

Manual or motorized controls ensure smooth, convenient operation. A wide selection of fabric choices offer color, texture, view and performance. Fabrics suitable for outdoor use in our Rollstar-EX systems are listed in our Pricing & Specifications Book and on the back of our sample swatch decks.

AT A GLANCE...

- **Application:** Vertical (Floor or Wall Systems)
- **Lifting Systems:** Motor or Continuous Chain Operator (CCO)
- **Fabrics:** Solar
- **Hem Styles:** Hem Pockets or Hem Bar (Covered or Exposed)
- **Top Treatments:** Headboxes (4045, 5050, 5555 and 7090 Headboxes)

CABLE MOUNTS & HEADBOXES

Manual or motorized controls ensure smooth, convenient operation. Headboxes protect the shade and the lifting mechanisms and add a finished look. Steel mounted cables attach to the walls or floor.

TOP CABLE MOUNT (Wall)

TOP CABLE MOUNT (Ceiling)

BOTTOM CABLE MOUNT (Floor)

HEADBOX (CCO)

HEADBOX (Motorized)

BOTTOM CABLE MOUNT (Wall)

HEM BARS

Hem bars attach to the steel mounted cables on the sides.

COVERED HEM BAR
(Small, 5/8" diameter; max. width 72")

COVERED HEM BAR
(Large, 1 1/8" diameter; max. width 192")

EXPOSED HEM BAR
(Large, 1 1/8" diameter; max. width 192")
